

myNIPT[®]

MyNIPT[®] is a data exchange portal that enables the seamless exchange of patient results easily and securely between the laboratory and the clinic. Healthcare professionals can track the status of the submitted samples and communicate with the laboratory.

- High risk results are highlighted in the portal and a notification sent to alert you that a high risk result has occurred.
- Input pregnancy outcomes to allow continuous quality monitoring.
- The portal has an easy to navigate interface with a simple layout to ensure busy users are up and running quickly.
- Secured to N3 standards with 256-bit encryption of data both when stored and in transit.
- The portal can be customised with the logo of the processing laboratory.

The screenshot shows the MyNIPT Clinic Dashboard. On the left is a dark purple sidebar menu with the following items: Home, Register Sample, Templates, Request Stock, Manage Users, and Manage Clinics. The main header area contains the MyNIPT logo and 'the IONA test' logo. Below the header is a search bar labeled 'Enter Search Term'. The main content area displays a table with patient data:

	Patient ID	Name	Date Of Birth	Process Status
<input type="checkbox"/>	120716	DEAKINS, Charlie-May	16/09/1987	Result Available
<input type="checkbox"/>	101110	HOLMES, Ann-Marie	12/05/1978	Sample Received
<input type="checkbox"/>	3335145	MORRISON, Carla	15/04/1972	Registered

Working with MyNIPT® requires just 3 easy steps:

1

Register your sample directly on the portal to notify the laboratory that a sample will be on its way.

2

Follow the progress from the Clinic Dashboard. When results are available an automatic email notification will be sent out.

Patient ID	Name	Date Of Birth	Queries	Process Status	Arrived	Working Days In Lab	Report Expect...	Report Uploa...	Results	Pregnancy Outcome	Report
1369752	ISSELS, Henrietta	22/07/1979		Analyzing Sample	12/06/2017	3	16/06/2017			N/A	
1369270	MCKENZIE, Rosanna	15/11/1984		Result Available	12/06/2017	3	15/06/2017	15/06/2017	Low Risk	Create	
1285641	INGRAM, Amy	08/05/1982		Result Available	12/06/2017	3	15/06/2017	15/06/2017	Low Risk	Create	
1586283	LOPEZ, Maria	13/09/1987		Analyzing Sample	12/06/2017	3	16/06/2017			N/A	
1245795	SINGH, Amanda	12/06/1987		Result Available	12/06/2017	3	15/06/2017	15/06/2017	High Risk	Create	

3

Input pregnancy outcomes for continuous quality monitoring. All data can be exported to Excel or as a PDF.

Pregnancy Outcome

Additional features of MyNIPT®

- Order stock e.g. sample packaging directly from the laboratory
- Access and download your laboratory / clinic's customised consent form templates
